

SplashTub

VS.

Traditional Spa

SplashTub:

Up to 120 lbs. empty, take it to the lake house or the houseboat.

\$\$ Thousands less than a typical spa.

Simply plug into a standard 110v 15 amp outlet.

Accommodates 4-6 people.

Traditional Spa:

Up to 900 lbs., call the movers. Call a contractor to build a concrete support slab.

\$\$\$\$ May need a loan.

220v and 50 amp wiring required, call an electrician.

Accommodates 4-6 people.
